Ekal Vidyalaya is now offering a biotechnology class for youth! This curriculum uses several immersive learning techniques; students will participate in interactive discussions and fun projects. **Classes are for students ages 7-10.**

This session will be held from August 10th - 14th from 5:00 - 5:45 PM EST. Enrollment based on a first come, first serve basis (25 students max). Session overview is as follows:

Day 1 - Introduction to Basic Biology  
Day 2 - What are Viruses?  
Day 3 - What are Microscopes?  
Day 4 - Putting it together: What are Vaccines  
Day 5 - Online Poster Project

Contact ekalyouth@ekal.org for more info.

All proceeds go to Ekal Vidyalaya.

Help build a better future for children in rural India.

Minimum donation value: $50
